

Acquisition of phonology: Perception and Production

September 28, 2010
MPI, Colloquium room

9.30-10.15 Daniel Swingley, University of Pennsylvania
Tba

10.15-11.00 Muna Pohl and Janet Grijzenhout, University of Konstanz
6- to 12-month-olds' perception of phonetic detail in stops

Coffee/Tea

11.30-12.15 Marilyn Vihman, University of York
Do child production patterns affect word recognition or word learning? Two experimental studies

12.15-13.30 Lunch

13.30-14.15 Caroline Junge (MPI)
Early word learning

14.15-15.00 Clara Levelt, Leiden University
The development of voiced plosives in production:
Representation or implementation?

Tea/Coffee

15.30-17.15 Rene Kager & Liquan Liu, Utrecht University
Is statistical learning affected by perceptual reorganization? Dutch infants' sensitivity to lexical tone discrimination

16.15-17.00 Nivi Mani, University of Goettingen
Cups, Cats, Dogs and Hats: Phono-semantic links in the toddler lexicon

Drinks

There is no registration fee, but please let us know if you plan to attend
